

# CASTER OPTIONS

## Are your casters breaking?

Different floor surfaces require different casters.

Caster wheels that are incorrect for the floor surface they are rolling on are the leading cause for broken casters.

Storlie Furniture offers casters for both hard and soft floor surfaces.

### HARD CASTERS

*Standard on all Harmony Collection seating*

Suitable for carpeting and other soft floor surfaces.

Potentially damaging to hard floor surfaces.

100 lbs. weight capacity per wheel.

### SOFT CASTERS

*Upgrade available for most Harmony seating*

Designed for hard floor surfaces including: tile, linoleum, wood, concrete, and glass chair mats.

Prevents casters from breaking on hard floors.

## Soft Caster Options

#### PU-CASTER

(Old Sku) SKU# FW236BSM-5  
120 lbs. weight rating per wheel  
**List: \$27**
